## SCRIPT FOR KOKUSAISEI NYUUSHI 2021

Good morning.

From now we will start the paper test.

### **SECTION 1 SCRIPT**

Turn your test paper to the next page. Please look at the whiteboard.

You are going to choose 1 picture from the box below. The picture must fit the pattern.

The last letter of each is the first letter of the next one.

Look and circle the picture that fits the pattern.

Let's do an example; please look at one star.

This is a cat. Cat ends with T. This is a Tomato. Tomato starts with T and ends with O. Last is a slide. It starts with S. Which picture should go here? We want one that starts with O and ends with S. That would be....the Octopus.

So, you would circle the paper like this.(demonstrating on the whiteboard as explained)

If you make a mistake, please draw 2 lines, like this. And draw your new circle, like this. Please finish this page. You start from Two Star.

Okay, please begin:

Times up. Please put your pencils down.

Please look at the whiteboard. Please look at One Triangle. On this page, you will make pairs from the pictures in the box.

For example, you can pair a raccoon with a deer, like this. Keep making pairs until no more pairs can be made. In this box, we can make 4 pairs. There are now 2 raccoons with no partner. So, in the answer box, we now draw 2 circles, like this. There is now one circle for each raccoon with no partner. It is okay to use your pencils to make the pairs on the test paper, like this. (gesture)

If you make a mistake, please draw 2 lines, like this. Please turn your test papers to the next page. Please finish these 2.

Okay, please begin.

Times up. Please put your pencils down.

Please look at Two Triangles.

On this section, you will make groups from the pictures in the box. For example, you can group a dumpling, an ice cream and hamburger, like this. 1, 2, 3, 4, 5, 6.

In this box, we can make 6 groups. There are now 2 ice creams not in a group. So, in the answer box, we now draw 2 circles, like this. There is now one circle for each ice cream not in a group. It is okay to use your pens to make the groups on the test paper. If you make a mistake, please draw 2 lines, like this. Please finish these 2. Okay, please begin.

Times up. Please put the pens down.

Please look at the whiteboard.

On this page, you must follow the arrows to get the Robot to the Star.

Please look at One Diamond. For example, here the robot must go Right, Right, Up, Up, something, Up. So, look at the box below and choose the correct arrow to help the Robot. To help the Robot we must circle the Right arrow.

If you make a mistake, like this, please draw 2 lines, like this. And draw your new circle, like this. Please turn to the next page. Please do the next five by yourself.

Okay, let's begin.

Please look at the whiteboard and turn your question paper to the same page.

From now, please listen to the stories. Then, answer my questions.

Let's do an example.

## **Example Story**

Today is a snowy day. Mr. Penguin wants to play outside.

He calls Ms. Fox and Ms. Cat. He also calls Mr. Hamster and Ms. Mouse.

"Please come play outside!" says Mr. Penguin.

"Let's play in the snow!" says Ms. Fox.

All the animal friends meet at Mr. Penguin's house.

They make a snowman, but they don't make a snow castle.

They don't go skiing, but they do go ice skating.

Everyone is very happy.

The end.

### Questions:

1. How is the weather?

**For this question, you must draw a circle in the box under the correct weather picture. In the story, it was snowy, so we draw the circle here. If you make a mistake, draw 2 lines like this. And draw your new circle, like this.**

2. What animals played outside?

**Ms. Fox, Ms. Cat, Mr. Hamster and Ms. Mouse played outside with Mr. Penguin. So, we circle all these animals, like this.**

3. What did they do outside?

**They made a snowman and went ice skating, so we draw a circle here and here.**

Please turn to the next page. From now we will start the story test.

I will read the each story 1 time and the questions 1 time.

Let's begin.

### Story No. 1

One day, a boy named Tommy went into the forest. He wanted to find lots of bugs. He thinks bugs are exciting!

At first, he could not find any bugs. Instead he found flowers, mushrooms, 2 birds and 3 bears. He continued walking in the forest. He soon found 2 caterpillars and 4 beetles. He came to a lake in the forest. By the lake he found 2 grasshoppers! He was so happy!. He was hungry, so he decided to go home. While on his way home, he found 5 ladybugs! When he got home, he showed his mother the bugs he found. His mother was so happy. Then, Tommy showed his father the bugs. His father was scared! Father hates bugs!! Tommy happily ate lunch. He watched the bugs while he ate his spaghetti.

### Questions:

1. How many boys looked for bugs? Draw a circle for each boy.
2. Other than bugs, what did Tommy find in the forest? Please circle what he found.
3. Which bugs did Tommy find 2 of? Please draw circles for those bugs.
4. Where did Tommy find the grasshoppers? Please draw a circle.
5. How many lady bugs did Tommy find? Draw a circle for each ladybug.

Please turn to the next page.

## **Story No. 2**

Today is a nice day. Sara is very happy. She is going to the park with her father. There are many activities at the park. There is a big swimming pool, a lake for fishing and a play ground with swings and a slide.

Sara really likes swimming, going down the slide and swinging, but she hates fishing. Fishing is boring. Sara and her father go to the playground first. Sara goes down the slide 7 times! Her father goes down the slide 5 times.

Then, Sara and her father play on the swings. They play for 9 minutes.

After playing in the playground, they have a picnic lunch. They eat sandwiches, strawberries and cookies.

After lunch, Sara and her father go swimming. Sara is wearing a green swimsuit. Her father is wearing a yellow swimsuit. At 4:00 they go home.

They are tired but happy.

### **Questions:**

1. Who went to the park with Sara? Please draw a circle.
2. Which activities does Sara like? Please draw circles.
3. How many times does Sara go down the slide? Please draw a circle.
4. How many minutes do Sara and her father play on the swings? Please draw a circle.
5. What did they eat for lunch? Circle the foods they ate.

The test is now finished.

Please close the test paper and put away your pencils.

Please follow the teachers to the next room. Thank you very much.

2021 KOKUSAISEI NYUUSHI 「Activity」 SCRIPT

Please sit down.

Thank you for coming to Kaichi today. Let's enjoy today's "Activity" together!

Before we begin, let's play a game of 'Rock, Paper, Scissors!'

Let's look at a picture. What's this? (showing a picture card to the examinees) – Yes, it's a zoo. What are some zoo animals?

Now, let's make some zoo animals together! We are going to make animal masks...like this!

There is one rule! Everyone in your group must make a different animal. For example, there can Not be more than one lion in the group.

Please talk to your group members and choose what animal everyone will make. You have 3 minutes to decide.

Do you know what animal you will make? Great!

You can use your scissors, glue, crayons, origami paper, a paper plate, chopsticks and tape (it's at the back).

First, make the parts of the face like the nose or mouth. You can color the face or cut origami and glue it onto the plate.

After making the face, please add ears, fur or other parts. You have 7 minutes to make it. Please begin.

Okay, please stop. Now, let's tape the chopsticks to the back, like this. You have 3 minutes to tape on the chopsticks. Please begin.

Now please stop making your mask.

Great, everyone. Your animals are all so cute!

Let's clean up! We only need to throw out the garbage. You can take your origami home. You have only 3 minutes to clean up. Are you ready? Okay, let's begin.

We are finished for today. Let's go to the next room. You did a great job! Thank you very much!
